

Examiner's Comment

- The BPAI Decision of 7/30/2010 reverses the examiner.
- The Non-Final Rejection mailed 12/16/2010 is withdrawn.
- Claims 1-16 are allowed.

STATEMENT OF REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

The primary reason for the allowance of the independent claims 1, 8, and 16 is that the prior art of record taken individually or in combination does not teach or fairly suggest a method, apparatus, or system for providing a threshold value for a traffic reservation parameter, said threshold value lying between a minimum value and a maximum value of the traffic reservation parameter, metering an actual value of the traffic reservation parameter, and if the actual value of the traffic reservation parameter exceeds the threshold value of the traffic reservation parameter, marking the packets only based on the actual value of the traffic reservation parameter, and if the actual value of the traffic reservation parameter is below the threshold value of the traffic reservation parameter, marking the packets based on a pre-assigned priority of the packet.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably
